

# FINN AND HIS ADVENTURES

Once Upon a time there lived Finn.

He was 18 years old and he was planning to go to **Treasure hunt**. He told his friend Tom about it. Tom **PACKED** everything and they decided to start their **JOURNEY** when they started their journey at 11:30 am, and they reached the mountains at 12:00 pm.

When they reached the **mountains** they were hungry, so they ate some **food** and continued. when they started **climbing** the mountain, Finn had a problem he did not know how to climb a mountain. So Tom **taught** Finn how to **climb** a mountain, and then they continued until they saw bab the **devil**.

That he was so **angry** to see them here. So he ran towards them with bloodshot **eyes**. Finn knew how to get rid of **bab**. He shined a **flashlight** towards him, bab ran out of there. So they continued and reached a cave at 2:00 pm.

So they turned on their flashlight and there was a **X mark** then they **DIGGED** and they digged

and they digged until they found **20,000 dollors**,finally they found **20,000 dollors** then they both shared 10,000 dollors each.
